

Community Health

MAKING EVERY DAY COUNT.

Susan G. Komen® is the largest breast cancer organization, funding more breast cancer research than any other nonprofit outside the US government while providing real-time help to those facing the disease.

Since 1982, Komen has contributed to many of the advances made in the fight against breast cancer, transforming how the world treats and talks about this disease and helping many more people become breast cancer survivors.

ON ANY GIVEN DAY at Susan G. Komen, our local Community Health Programs are making an impact.

24 people
learn they have
breast cancer through
Komen-funded services.

881 people
receive a free
Komen-funded
screening.
