

COMMUNITY HEALTH Making Every Day Count.

Susan G. Komen® is the largest breast cancer organization, funding more breast cancer research than any other nonprofit while providing real-time help to those facing the disease.

Since 1982, Komen has contributed to many of the advances made in the fight against breast cancer, transforming how the world treats and talks about this disease and helping many more people become breast cancer survivors.

ON ANY GIVEN DAY at Susan G. Komen, our local Community Health Programs are making an impact.

18 people
learn they have
breast cancer through
Komen-funded services.

582 people

Information is from FY16 gathered from Komen Grants eManagement System (GeMS), Treatment Assistance Program, Breast Cancer Helpline and komen.org. Breast cancers diagnosed are the number of staged breast cancer diagnoses reported in GeMS. Per day calculations based on averages for each variable using an estimate of 365 days in the year. Updated February 2018.
